

601 4" Round Soffit Vent

604 4" Round Soffit Vent

Here at siding mounts

All of us at Siding Mounts understand the importance of your home. We are homeowners too, and we settle for only the highest quality and best-looking products we can find. Cladding is all too often either ugly or does not function as it is intended to, which will cause myriad problems down the road. When we design our products, we keep the homeowner in mind. We want your home to be beautiful and safe from potential problems, so we designed state of the art cladding that ensures homeowners only the best experience possible. You can rest assured there will be no structural problems with our high-quality siding mounts. Nobody wants a house filled with mold and insects! If you choose the cheap road, that is

exactly what can happen. But with our products, we will make your home look gorgeous and make sure our products function as they are intended to: to keep your vents safe!

Product description

When we design our products we design them to be fully functional and aesthetically pleasing. The 601 4" Round Soffit Vent is no exception! We designed this product with a full 1" back collar for mechanical connections and a full 1" flange for easy installation over the soffit. Whether you are hiring a contractor or thinking of doing a few do it yourself home renos around the house, the design of this soffit makes it possible! They are not only aesthetically pleasing but functional and designed with wit and intelligence as well. We are trusted by homeowners and contractors across the nation and we are proud of that. Allow us to help you find the right products to make the house look the way you always wanted it to look: beautiful.

Details

The 601 4" Round Soffit Vent comes in two colours choices, white or black, allowing you to choose if you want flow or contrast on the soffits of your home. It has a vent free area of 6.38 square inches.
