Here at siding mounts

Over here at Siding Mounts we know what quality means to a home. When we design our products, we design them with you, the homeowner, in mind. We know the cladding on a home is a defining feature of aesthetics. They need to look amazing and do their job properly, which is protecting your home against the elements. Many homeowners have discovered too late that mold or insects can be disastrous to the structural integrity of your home. Our guarantee at Siding Mounts is our products are made from high-quality materials and will always perform their intended function. But not only that! They will also look remarkably good and stylish for all your neighbours to see.

Product description

The Corner Cap from Siding Mounts is the piece of vinyl that covers the 45 degree cut joint between handrail covers. Where two pieces of vinyl covering meet, this piece will cap it, making sure the entire piece of handrail is protected from the elements. In Canada, we know how temperamental the weather can get, and finding the proper protection against that can be a hassle. But now you need look no further! Our accessories will keep you and your home protected thanks to our high-quality home products. There is a reason we are trusted by not only homeowners, but also contractors, across the nation. We make products that are aesthetically pleasing, reasonably priced, and are made from high quality materials that can withstand any of the elements nature decides to throw your way. Rest assured your home will be safe and sound with our cladding and accessories such as this one, the Corner Cap from Siding Mounts.
