Jumbo Block

Jumbo Block

Here at siding mounts

All of us at Siding Mounts understand the importance of your home. We are homeowners too, and we settle for only the highest quality and best-looking products we can find. Cladding is all too often either ugly or does not function as it is intended to, which will cause myriad problems down the road.

When we design our products, we keep the homeowner in mind. We want your home to be beautiful and safe from potential problems, so we designed state of the art cladding that ensures moisture and insects do not come back to bite you years from now. You can rest assured there will be no

structural problems with our high-quality siding mounts.

Product description

The Jumbo Block is exactly what it sounds like — a jumbo block. It is installed on an exterior wall for a point to mount exterior accessories and products. If you are tired of having all your gardening tools laying around in the garden outside, making the place a mess, then the jumbo block can give you an organized area to hang up some of your tools.

Tired of tripping over the various other tools, accessories, or products you have laying around outside your house? Hang them up on the jumbo block. This product is meant to help with organization and cleanliness around your house and yard. It is easy to install onto your exterior wall and looks great thanks to its simple, minimalistic, functional design.

Details

The Jumbo Block comes in one colour: white. The white will look good on a home no matter what colour the exterior is painted. If your house is painted a dark green and you mount the Jumbo Block onto the exterior, it will create a beautiful contrast. That being said, the jumbo block also looks amazing on lighter-coloured homes, too. If you have a house painted an off-white, or light blue, or anything in that area, the white will create for a beautiful flow to the home. No matter where you install the jumbo block on the exterior of your home, rest assured it will look amazing!
