

Meter Mount Plate

Meter Mount Plate

Here at siding mounts

Over here at Siding Mounts we know what quality means to a home. When we design our products, we design them with you, the homeowner, in mind. We know the cladding on a home is a defining feature of aesthetics. They need to look amazing and do their job properly, which is protecting your home against the elements. Many homeowners have discovered too late that mold or insects can be disastrous to the structural integrity of your home. Our guarantee at Siding Mounts is our products are made from high-quality materials and will always perform their intended function. But not only that! They will also look remarkably good and stylish for all your neighbours to see.

Product description

The Meter Mount Plate is the solution for an electrical meter mount backing plate. When you are looking for something to mount your electrical meter on, this is the cladding you are looking for. It is made from high quality materials and will ensure your home is properly protected from any damage that could occur from trying to mount electrical without a proper mount plate. This is functional and stylish cladding at its best. We designed it to do exactly as it is meant to do and that is it. We designed it to interlock to create a larger surface, so you have ample space for your electrical mount.

Details

The Meter Mount Plate comes in one colour: white. It has outside dimensions of 17 5/8"x 15 7/8", and is designed to interlock to create larger surface for your electrical mount. When you are looking for high quality siding, you need to look no further. The Meter Mount Plate from Siding Mounts is trusted by homeowners across the country. Add to your cart now to find out why. We are contractor's choice for a reason! The white colour of this meter mount makes for a simple, blending, or contrasting highlight to the exterior paint colour of your home. It looks as great as it functions!
