

Octagon Gable Vent – 19"

Octagon Gable Vent – 19"

Here at siding mounts

The cladding on a home not only determines look and aesthetics, but functions as protection against the elements. If you or somebody you know is a homeowner, you have likely discovered mold can cause immense problems to the structural integrity of a building. Here at Siding Mounts, we know all too well how many issues can appear when you utilize cheap products, such as cladding, on your home. So, when we design our products, we design them with you, the homeowner, in mind. For that reason, our products not only look amazing, but they function exactly how they were intended, and more!

Product description

The Octagon Gable Vent – 19” is a decorative gable vent that comes in a beautiful white to add some neutral highlights to whatever colour your home is. All the gable vents include a decorative drip channel that is ideal for rain screen applications. It functions to funnel the water out and over the exterior finish of the house which is already protected with a coat of paint to prevent moisture from penetrating the stucco or siding. We designed this gable to include weeping holes which act to prevent condensation or moisture from getting trapped inside. Trapped moisture creates ideal conditions for mold to form, which can be disastrous to your home. We designed this Octagon Gable Vent with a molded-in screen which prevents pesky insects from nesting. Insects notoriously damage the glue and create further issues you may not even notice until it is too late. With our molded-in screen, insects do not stand a chance! The large rear angle allows for easy washing, and peel-and-stick application. We design our products to be functional, stylish, and made with the homeowner in mind. There is a reason contractors love our products!

Details

The Octagon Gable Vent – 19” comes in one colour: white. The size is 19” but if that is too small for you, we also offer the Octagon Gable Vent in 22” as well. It is a very lightweight product and is designed and built with materials meant to withstand time and whatever elements nature throws your way.
